Profile

Final-year B.Tech CSE student specializing in full-stack development, real-time systems, and AI-powered applications, with hands-on experience building scalable digital products , Eager to contribute to innovative teams and deliver high-performance solutions in real-world environments.

EDUCATION

Techno India University, KOLKATA	2023 -Present
B.Tech, Computer Science and Engineering(Artificial Intelligence)	CGPA: 7.4
D.A.V. Public School, SASARAM , ROHTAS ,CBSE	2022
Class-12th	%: 74
Class-10th	%: 81

PROJECT

Mindscribe , an AI-powered exam notes LIVE code React.js • MongoDB • Node js • Express.js • JWT • STRIPE • Render - Auto-generates structured exam notes, diagrams, graphs & charts from any topic with a smart Revision Mode delivering short, crisp summaries for last-minute prep. - Implemented class-wise & subject-wise important question banks powered by Gemini AI, a JWT-secured auth system, - Stripe-integrated credit-based billing engine with tiered Pro/Team subscription plans.
Velora – Smart Vehicle Booking Platform LIVE code Next.js • MongoDB • Socket.io • Auth.js • Razorpay • ZEGOCLOUD • Framer Motion - full-stack vehicle booking platform with three distinct role-based portals — Customer, Driver, and Admin — supporting end-to-end ride management. - real-time live map tracking using Socket.io, enabling seamless location updates . - Integrated Video KYC for driver verification using ZEGOCLOUD, ensuring secure and compliant onboarding. - Built secure authentication with Auth.js and designed an AI-ready scalable architecture. - Delivered end-to-end payment flow using Razorpay .

TECHNICAL SKILLS

Languages: C/C++, SQL, JavaScript , TypeScript , Python ,Linux
Developer Tools: Git,Git-hub React, VS-code , Jupyter Notebook
Developer Frameworks : React js , Node js , Express js, Nextjs
Database: MySQL, MongoDB
Coursework: Data Structures and Algorithms, Object Oriented Programming, Database Management System, Operating System , Computer networking Areas of interest: Problem Solving

CERTIFICATE

Finished AWS Cloud Quest : LINK	March 2026
Oracle Agentic AI Certified Foundation Associate LINK	July 2026
Foundation of prompt engineering (aws Training & certificate) LINK	July 2026
IBM SQL relational database LINK	July 2026

Achievement

Google Cloud Arcade Facilitator Program – Advance Milestone	July 2024
Completed Google Cloud's gamified learning program, gaining hands-on experience with GCP services including Compute Engine, Kubernetes, BigQuery, IAM, and Cloud Storage
